DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

In Claim 1, line 6, "said tester cycle time" has been changed to - - a tester cycle time - -.

In Claim 9 line 9 "said tester cycle time" has been changed to - - a tester cycle time - -.

Allowable Subject Matter

2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance:

U. S. Patent No. 6,606,575 to Miller is the reference closest to the claimed invention. Miller discloses a timing calibration system for a wafer level integrated circuit tester, comprising: a reference signal generator to produce a reference signal REF having a pattern similar to that of the TEST signal and a compare circuit for comparing the TEST and REF signals and producing an output MATCH signal, wherein the MATCH output of compare circuit indicates how well the amplitude of the TEST signal matches that of the REF signal. However, Miller does not teach a method of causing a test equipment to accurately place the edges of a

signal used to test a device under test (DUT), said method being performed in a digital processing system, said method comprising: determining an expected time of occurrence of each edge of said signal; instructing said test equipment to generate a plurality of cycles of said signal in relation to a tester cycle time; receiving data indicating a plurality of time points at which the edges of said signal have occurred in said plurality of cycles; computing an error based on said plurality of time points and said expected time; and adjusting a timing of the edges of said signal based on said error; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
